Bob – would there be an opportunity for you to go to Wells Fargo and have a pin set up on the debit card ending in “4401?” We would like the pin to be “3400” but only yourself and Jessica are authorized on the cards to request this added feature.

Unfortunately, with the new chips the card is being declined at a few places due to the card being issued as a debit yet having a chip associated with it.

Let me know if you need the physical card to add this feature; I am happy to walk the card over to you.

THX.
